Water-related publications (2020 – present)

Water and Development

Saravia Matus, S., M. Gil, N. Sarmanto, E. Blanco, A. Llavona, & L. Naranjo (2022), **Gender gaps, challenges and opportunities in the water sector in Latin America and the Caribbean** *(In Spanish only)*

An analysis of the policies that address water and gender issues related to: i) water and sanitation access and infrastructure, ii) agricultural productivity, iii) water collection and management, and iv) governance and participation.

Saravia Matus, S., M. Gil, E. Blanco, A. Llavona, & L. Naranjo (2020), **Water challenges in Chile and recommendations for achieving SDG 6 in Latin America and the Caribbean** *(In Spanish only)*

The document examines the challenges that Chile faces to achieve SDG 6 and provides technical and public policy recommendations for the rest of region.

Circular Economy

Saravia Matus, S., M. Gil, D. Fernandez, A. Montañez, E. Blanco, L. Naranjo, A. Llavona & N. Sarmanto (2022), **Circular economy opportunities in wastewater treatment in Latin America and the Caribbean** *(in Spanish only)*

Estimation of the investment needs and the economic-, social- and environmental benefits of methane recovery and electricity generation at 75 WWTPs in the region.

Fernández, D., A. Montañez & N. Sarmanto (2023), **Diagnosis of the provision of drinking water and sanitation services in El Salvador, Mexico and Panama** *(in Spanish only)*

The report assesses the status of drinking water and sanitation services, including regulatory and institutional frameworks, investments, service coverage, and pricing.

México

El Salvador

Panama

Water, Sanitation, and Hygiene

Fernández, D., S. Saravia Matus y M. Gil (2021), **Regulatory and tariff policies in the drinking water and sanitation sector in Latin America and the Caribbean** *(In Spanish only)*

The state of regulation, structure, and tariff values for the recovery of the costs of drinking water and sanitation systems in Latin America and the Caribbean are analyzed.

UN Water Conference 2023

The Regional Water Action Agenda for Latin America and the Caribbean (Available in English and Spanish)

An instrument of voluntary commitments that highlights prioritized areas and necessary efforts to achieve a sustainable and inclusive water transition and accelerate the achievement of SDG 6 in Latin America and the Caribbean.

Water, Energy and Food (WEF) Nexus

Naranjo, L. & B. Wilaarts (2020), **Methodological guidelines: design of actions with a focus on the water, energy and food Nexus for countries in Latin America and the Caribbean** (In Spanish only) English translation scheduled for 2023)

Guidelines to strengthen capacities for the adoption of the Nexus approach in public policy design. In addition, it provides tools to assess the extent to which the Nexus approach has been adopted.

Willaarts, B., E. Blanco, A. Llavona, & D. Martínez (2021), **Comparative analysis of actions with a water, energy and food Nexus approach: lessons learned for the countries of Latin America and the Caribbean** (In Spanish only)

Public policy analysis and comparison to draw best practices from WEF Nexus approach. Six case studies from three countries are analyzed: Chile, Bolivia and Ecuador.

Llavona, A. (2020), **Lessons from the Plurinational State of Bolivia for the adoption of the WEF Nexus approach** (In Spanish only)

Analysis of the National Watershed Plan of Bolivia, the Misicuni Multiple System Dam and analysis of the main irrigation policies of the last thirty years.

Blanco, E. (2020), **Lessons from Chile for the adoption of the WEF Nexus approach** (In Spanish only)

Analysis of four Chilean policies regarding the benefits to promote irrigation technologies, strategic plans for integrated water management, Santiago- Maipo Water Fund and the National Energy Policy.

Forthcoming

- Saravia Matus, S., M. Gil, D. Fernandez, A. Montañez, E. Blanco, A. Llavona, L. Martínez, L. Naranjo & N. Sarmanto (In press), **Investments to universalize access to WASH and impacts on job creation and value added in LAC** (In Spanish only. English translation scheduled for 2023)
